Good morning , the gates are still not being locked open in the morning .

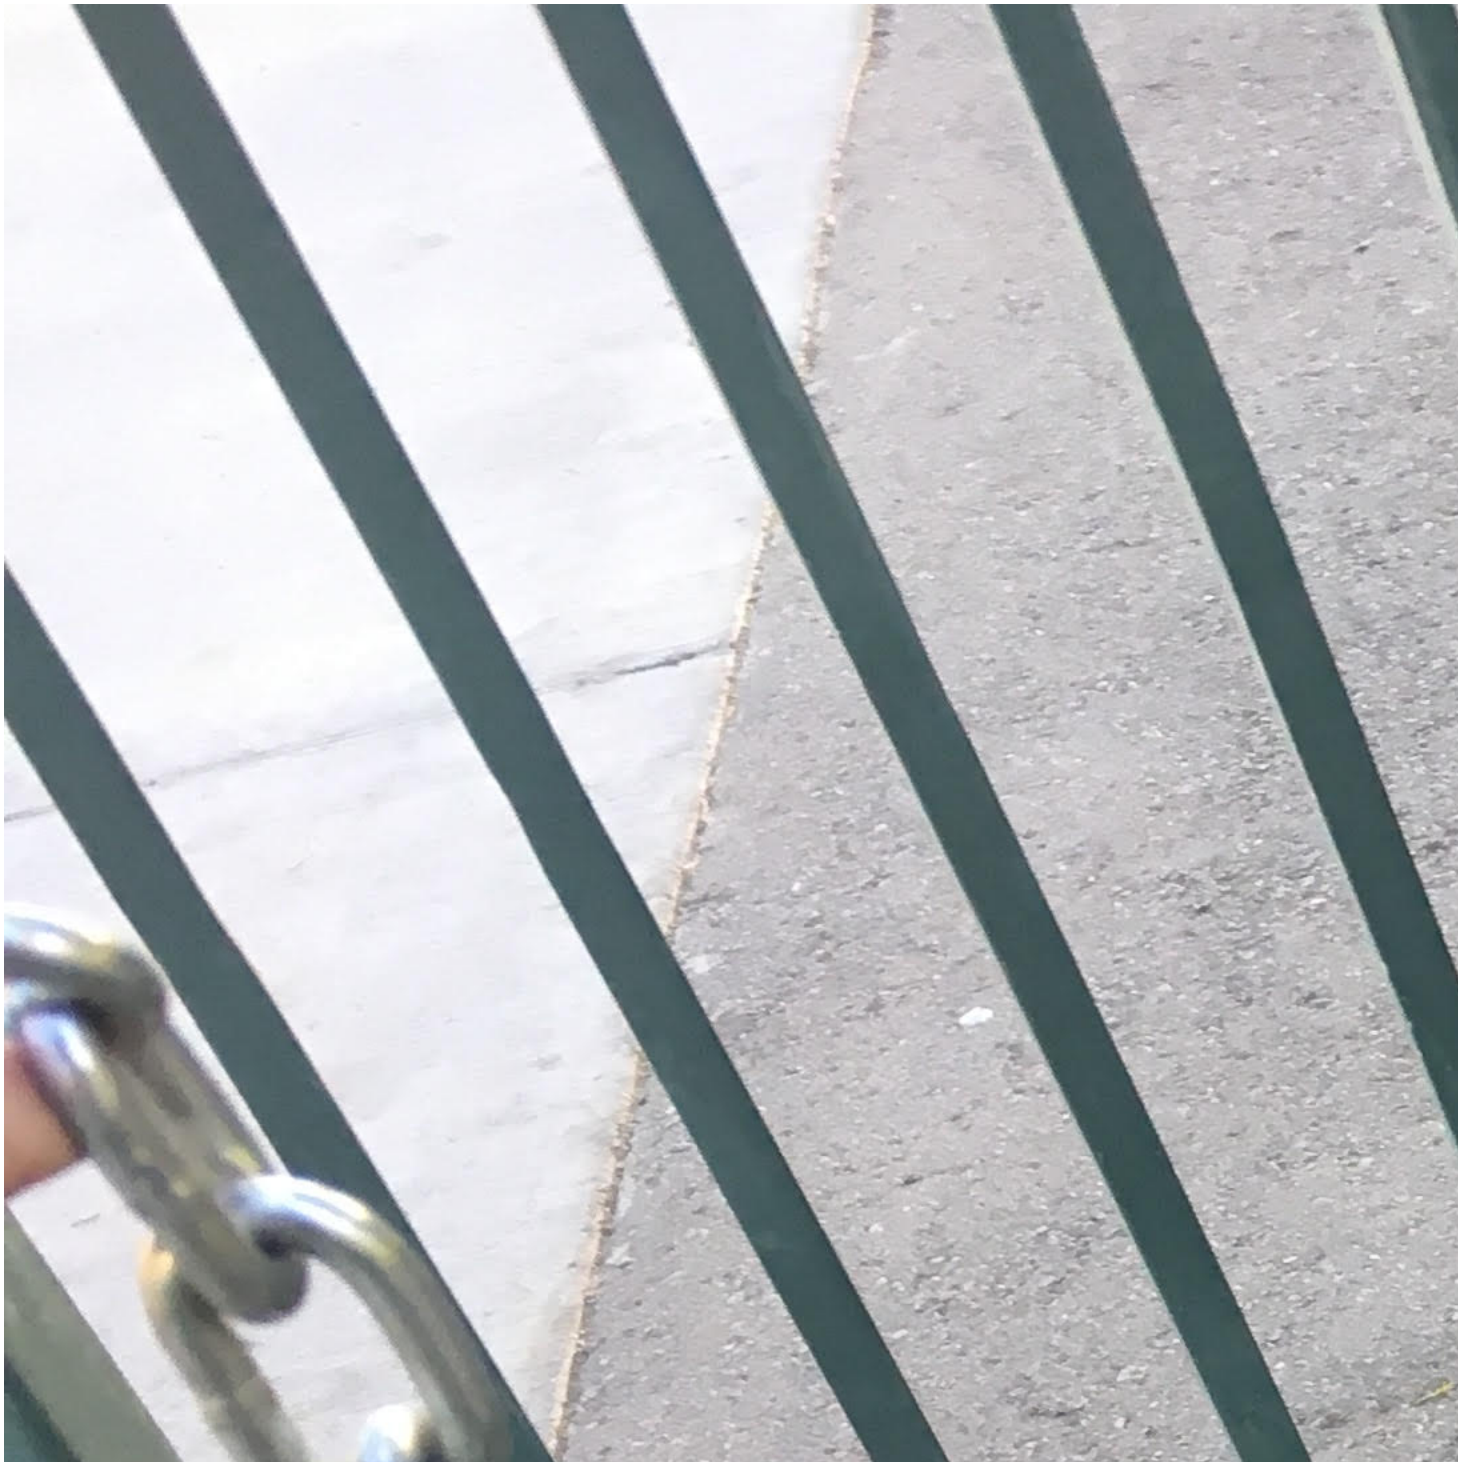

Here is how the morning opener left the gate yesterday and today! On both mornings , I walked across to the park from my home to take the hanging chain you see in both photos and lock it . It took months to get this simple chain welded to the fence so the gate would be locked open all day/night until close of the park in the evening. Again, this was done to ensure our handicap and purposes.

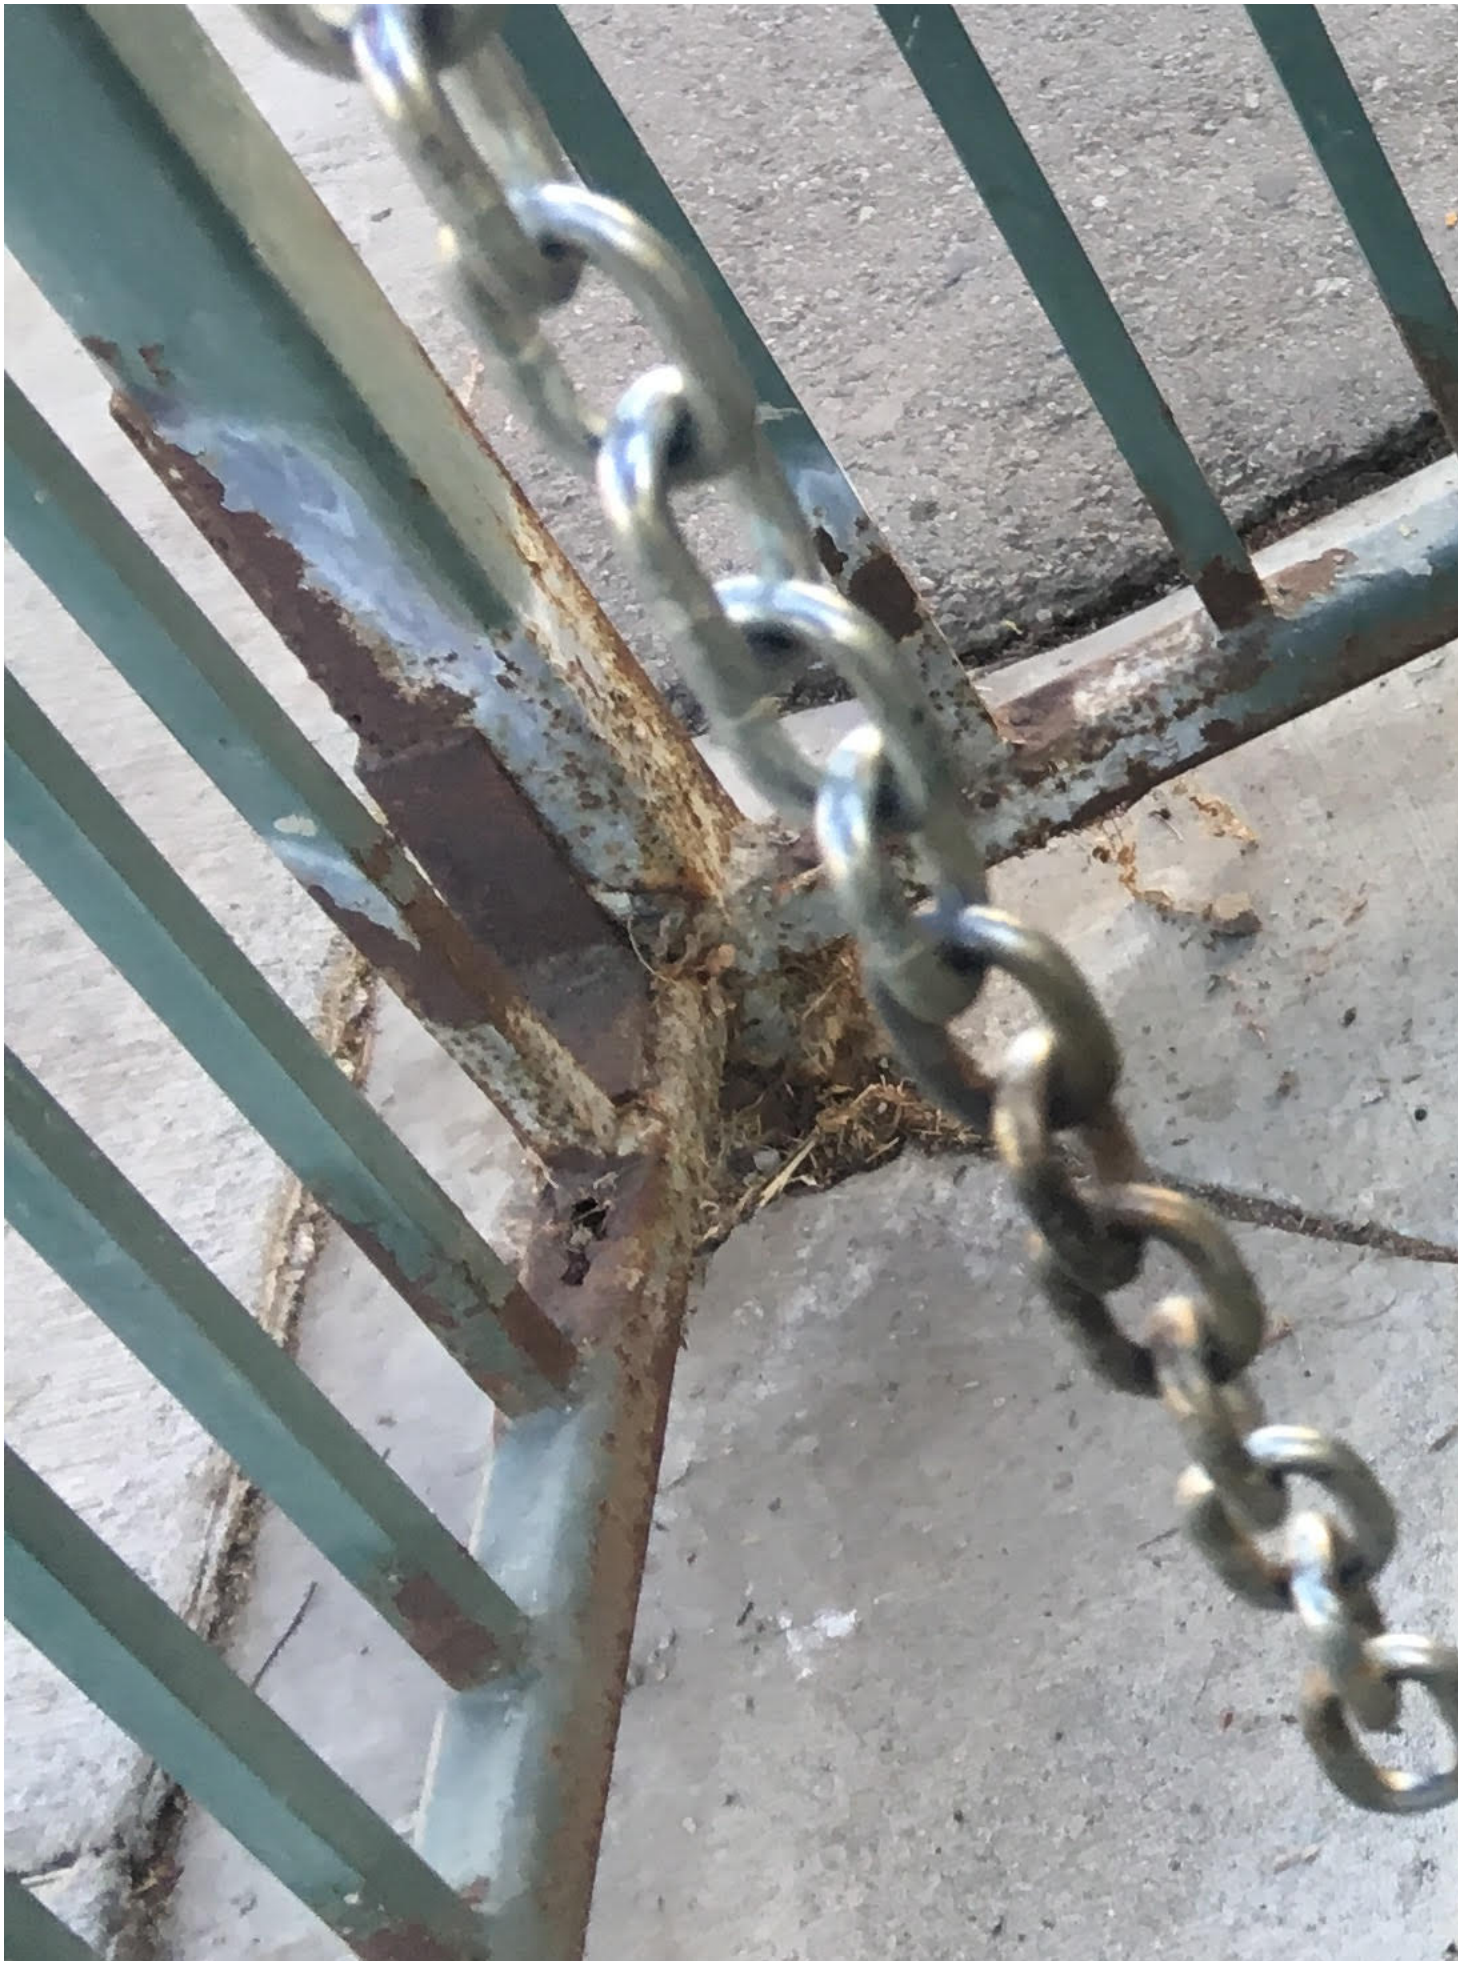

Please advise your opener to ALWAYS lock the chain side gate OPEN in the morning. The evening crew has been doing a good job consistently closing the park as instructed .

Thanks you
